

DANIEL SILVA

SOFTWARE ENGINEER

Developer looking for opportunities to apply and improve my software development skills and contribute to successful projects.

EXPERIENCES

- Freelancer, Remote
Backend Developer

- **Project- Cafeteria Management**

Development of a canteen management system in Java, following Domain-Driven Design (DDD). Implementation with JPA and InMemory, with support for persistence, dependency injection, and testing. The system allows you to manage users, products, menus, orders, and billing.

- **Project - Order and Production Management:**

This project was a challenge to develop using Java and pure SQL with an MVC architecture, without using frameworks. It allows you to manage customers, orders, products, workstations, suppliers, and production trees, as well as a production scenario simulator.

- **Project - Green Space Management**

EDUCATION

2023 - At the moment

Software Engineer - ISEP (Instituto Superior de Engenharia do Porto)
